Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

First set of species:

- a. Species I: Encryption key generation and use (believed to correspond with claims 8-12, 35, 41-42 & 44),
- b. Species II: Decryption key generation and use (believed to correspond with claims 13-15, 36 & 45),
- c. Species III: Signature key generation and use (believed to correspond with claims 16-20, 37 & 46), and
- d. Species IV: Verification key generation and use (believed to correspond with claims 21-24, 38 & 47). The species are independent or distinct because.

Second set of species:

- e. Species V: The first and third data sets are public parameters (believed to correspond with claims 2 & 5),
- f. Species VI: The first and third data sets are private parameters (believed to correspond with claims 3 & 6).

2. **Explanation:**

The claimed species in the first set are distinct because the generation and use of an encryption key to encrypt, a decryption key to decrypt, a signature key to sign and a

Art Unit: 2134

verification key to verify are exclusively distinct from each other and require a separate search.

Further, the claimed species in the second set are distinct because the use of public parameters versus private parameters are mutually exclusive from each other and therefore require a separate search.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from each set (Applicant should select 1 species from the first set of species (Species I through Species IV) and 1 species from the second set of species (Species V through Species VI) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. **It is reiterated that Applicant should select one from species I-IV and one of species V-VI for a total of 2 elected species.** Currently, claims 1, 4, 7, 25-34, 39-40, 43 & 48-49 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be

Art Unit: 2134

traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Simitoski whose telephone number is (571) 272-3841. The examiner can normally be reached on Monday - Thursday, 6:45 a.m. - 4:15 p.m..
